**series : Cartar
S.U.V Kit**

The Cartar S.U.V Kit is designed to work with both the Cartar Mobile and the Cartar Econo Lift range. With many of the unusual floor Pans and under-body lifting points in todays modern cars, the Cartar S.U.V kit gives that extra lift required for under body clearance. With this kit, the operator has the choice of two positions . Position A = 75 mm/3 inches above the Arm and position = B - 100 mm / 4 inches above the Arm. The S.U.V Kit comes in a set to accomodate 4 lifting points.

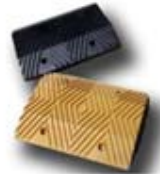

**series : Cartar
Platform Kit**

The Cartar Platform Kit provides an excellent Working Bench at variable heights to suit the the job at hand . With lift of 2.8 ton payload the Cartar Platform Kit. allows you to work in comfort on machinery and componanry that has excessive weight. . The Kit comes with the main deck, mounting bolts and 2 x drive on ramps.

**series : Cartar
Ramp Set**

The Cartar Ramp Kit is a simple , effective way to give your vehicle that extra 50 mm (2 inches) lift on lower than normal cars. With this extra height, no vehicle is too low for the Cartar FL Mobile to roll under .When used with the Cartar FL Mobile , machinery and componants can be moved to the high pressure washing department safely and with ease. Kit equals 2 x Ramps , Platform and mounting bolts.

**series : Cartar
Spraybooth Kit**

The Cartar Spray Booth Kit is an integral part of the Cartar Mobile System .When implemented, these products have revolutionised the industries approach to the movement of vehicles in and out of the painting shop. The operator now is in the enviable position of being able to move a disassembled vehicle into and out of a spraybooth in a safe and cost effective manner. The financial benefits of combining the Cartar FL Mobile Lift with the Cartar Spraybooth Kit instead of a fixed and static lift in your spraybooth are numerous.

**series : Cartar
Econo Wheel Kit**

The Cartar FL Econo Lift becomes totally portable when fitted with the Econo Wheel Kit. Move your lift with ease to any position in your workshop. For that matter it can also be used outside in all weather conditions. Unlike many lifts that claim to be portable and require levering back on handles, and dragging hoses and canisters of oil, the Cartar FL Econo is totally self sufficient and glides along the factory floor. This is all possible because of the unique Cartar Econo Wheel set. This is an optional product.

**series : Cartar
Tow Kit**

The Cartar Tow Pack, when used with the Cartar FL Mobile Lift takes the movement and work flow of vehicles to a whole new level in the modern Auto Shop. The Tow Pack allows the operator to connect a loaded Cartar FL Mobile lift to a tow vehicle of choice and single handed, move that elevated Auto through the workshop. Now available are many battery powered towing devices that are ideally suited to work with the Cartar Tow Pack.
